Is your faith a bird in darkness?
Broken glass. A moments note
Flash of lights strobes the ages
End will lie? The windows broke

We're destroyed by you
Blue storms that roll

Step outside. Kissing rain fall
Tasting like blue and gold
Splash of light, sends you airborne
Crashing out, and catching on

Tear drop eyes soak the pavement
Let it fall, let it fall
Charcoal blue city is swimming in petals
All are believing none are alarmed

[CHORUS]

Let it fall
Just let it fall
Let it fall
Landslide
Landslide
Landslide
Landslide

(Destroyed by you,
destroyed by you)
