Dream of all you can do

This little penny is a dancing penny

See how it glitters and it glows

Bright as a whistle

Light as a thistle

Quick, quick as a wink

Up on it's twinkling toes

This little penny is to laugh on

To see that tears never fall

This this little penny

Is the last little penny

And the most important of all

For this penny is to love on

And where love is, heaven is there

So with just five pennies, if they're these five pennies

You'll be a millionaire

For this penny is to love on

And where love is, heaven is there

So with just five pennies, if they're these five pennies

You'll be a millionaire
