"Gone But Not Forgotten"

Visit "[Gone But Not Forgotten](#)" on MotoLyrics.com

It's the same time of year it was then
The same trees changin' again
It's the same street we used to walk down
The same feelings then I feel now

Gone but not forgotten
Gone but still on my mind
Gone but not forgotten
Oh, your memory has been here all the time

It's the same moon lighting the night
The same room where we used to lie
It's the same bed I lie alone in
The same love for you I had then

Gone but not forgotten
Gone but still on my mind
Gone but not forgotten
Oh, your memory has been here all the time

Gone but not forgotten
Oh, your memory has been here all the time
