[Sylvia]

You have this way of going right to my head
Boy I've been hungry but never been fed
Now here you are you feel my heart and my soul
I know without you I could never be whole

You put the other lovers to shame
And boy it's more than a spark
It's an eternal flame

I knew I felt it right from the start
I don't just love you boy
I love you by heart

[Michael]

I never thought that just one touch of your hand
And all of my dreams will go according to plan
Sweet smells the passion from last night's perfume
Stealing me softly right here in this room

You put the other lovers to shame
And girl it's more than a spark
It's an eternal flame

When I'm not with you we're too far apart
I don't just love you girl
I love you by heart

[Sylvia]

Take my tomorrows and give me today

[Michael]

I live to love you every step of the way

[Sylvia]

It feels so natural I'm just doing my part

[Michael]

I don't just love you girl
I love you by heart

You put the other lovers to shame
And girl it's more than a spark
It's an eternal flame

[Sylvia]
I knew I felt it right from the start
I don't just love you boy
I love you by heart

[Michael]
I don't just love you girl
I love you by heart

[Both]
I don't just love you
I love you by heart
