Arms go ahead  
Hold him the way we want to  
Lips don't be shy  
Kiss him the way we plan to  
It will be our secret  
No one will never know a thing

We're only dreamin'  
And it don't hurt to dream

Eyes keep on looking  
If we decide to see  
And hands touch his hair  
Is it really as soft as it seems  
Fingers caress him  
Gently remove his wedding ring

We're only dreamin'  
And it don't hurt to dream

We're only dreamin'  
Oh if it only were real  
Oh I know we can think of  
A thousands ways to show him how we feel  
Oh but we'll never have him  
And that's the way it's gotta be

We're only dreamin'  
And it don't hurt to dream  
Oh we keep on dreamin'  
Cause it don't hurt to dream
