They say behind those eyes,
Beats a heart as cold as ice
If I was smart,
I'd take my heart and ru-un...

He promises the moon,
His talk is fast and smooth,
He's only looking out
For number one!

(Chorus)
They say,
The boy (the boy), the boy gets arou-ound
He's been (he's been) with every girl in to-own.
But I don't care what they say,
You know I'm gonna love him anyway!
They'll see, when he gets around to me--
He'll settle down, down, down!
The boy gets around, round round
The boy gets around...

They tell me, I'll get hurt
You play with fire, you'll get burned!
But maybe that's a chance
I'll have to ta-ake!

Nothing ventured, nothing gained
I'll prove he can be tamed!
When I get through,
They won't believe the cha-ange...

The boy (the boy), the boy gets arou-ound

He's been (he's been) with every girl in to-own.
But I don't care what they say,
You know I'm gonna love him anyway!
They'll see, when he gets around to me--
He'll settle down, down, down!
The boy gets around, round round
The boy gets around...

I tell you, he's misunderstood...
Don't they know even bad boys can be goo-oo-ood?
Yes!

But I don't care what they say,
You know I'm gonna love him anyway!
They'll see, when he gets around to me--
He'll settle down, down, down!
The boy gets around, round round!

The boy (the boy), the boy gets arou-ound
He's been (he's been) with every girl in to-own
The boy (the boy), the boy gets arou-ound
They'll see, with me, he'll settle dow-own!
The boy (the boy), the boy gets arou-ound...

(Fade Out)
