Spent a lifetime working for these

People

To make what they earn in one day

There are options to choose

I call it social progress

Progress not to be abused

Chorus

They were arrested for their views

It was the protesters they screwed

And still had the nerve ask who I was

Voting for

'Cause when you silence our youth

Then you silence

THE TRUTH!

Our right not to remain

Silent...

Start funding lives that move for

Changes

Not funding leaders that oppress and use

When politicians become nothing but major  
corporations

Posing as humans

Real humans lose...

Chorus(repeat)

I won't remain...

I won't remain silent...

BRING OUT YOUR DEAD!...

OPPRESSION!...

INTIMIDATION!...

SUPPRESSION
