A black man driving down the street one day

Pulled over by racist boys in blue in Brentwood, PA

There's no real reason, they don't have any right

It's just that in their eyes he's not the correct shade of white...

Driving in a neighborhood that's reigned by whites

Ain't healthy for a black man trying to live a lengthy life

All those cops they walked off free, but him he's in a grave

His name is Johnny Gammage, one of thousands they have slain

We've got no rights...

....when cops can kill

It's not right...

....we live in fear

Patrol man cruising in his car at night

Just looking for some homeys he can rough up in a fight

Pulled over 3 kids in a total rage

Next thing you know there's bodies all over the place

His back up came & they're all acting tough

3 kids vs. 6 or 7 cops all armed with billy clubs

The cops they did it just cause those kids color and

their age

They say that's not the truth, but this happens every  
fucking day!!!

We've got no rights...

....when cops can kill

It's not right...

....we live in fear

Fear of what you're gonna do, when a cop's talking shit  
to you

Fear of what you're gonna say, when the cops come  
gunning your way

Fear of what you shouldn't do, when the cops try to  
provoke you

Fear that on any given day, the cops should take your  
life away...

They say they're here to keep the peace...

WHAT A BUNCH OF FUCKIN' SHIT!!!

We've got no rights...

....when cops can kill

It's not right...

....we live in fear

TAKE BACK YOUR RIGHTS
