the national media cover clinton/lewinsky

while the world's governments sell out millions on the
issue of free trade

but somewhere in the night -- a force is not asleep

ad a massive organization plans to rise up to its feet...

it does it like this...

a pirate radio voice transmits into the night

and from D.C. to Peking email warns of lost global
rights

and the hoax the world's leaders, wanted no one to see

comes crashing on their heads from grass roots --
striking it down

the blows coming for the world's...

chorus:

underground network - alternative communication

corporate media can't keep us beat down,
brainwashed, enslaved

'cause of our... underground network - alternative
communication

they try to blind us but we...

stand up and fight! stand up and fight!

they try to keep us ignorant but we...

stand up and fight! stand up and fight!

they want to make our rights away so...

stand up and fight fight...!

just take a look around the world and you're going to
find that nearly all

mass media are owned and controlled by a handful of
conservative capitalists.

we must devise and implement alternative methods of
distributing our news, our

information, our ideas -- people worldwide working
together to make a stand, to

tell the truth
