It's gonna take some action and some reaction from...
....from me and you
'Cause you gotta stand up and you gotta make
demands to...
....obtain the truth
Time after time there are so many secret...
....decisions made
Where we have no choice and no representation...
....and have to say

It's in front of your face (It's in front of your eyes)
But you must open your eyes, if you're to see the truth

They try to tell us as a free we...
....run this country
But nobody wants to talk about the CIA files...
....files we can't see
"NATIONAL SECURITY" concerns a whole country but...
....we have no say
Our "security" blamed for our restricted freedom a
game...
....the government plays

It's in front of your face
(It's in front of your eyes)
But you must open your eyes,
If you're to see the truth

When there are secrets that we don't know
Then the ideal they pass as freedom in this country is a
fake
When we are left with no right or no voice to choose
Then we're not living in a free and democratic state

It's in front of your face
(It's in front of your eyes)
But you must open your eyes,
if you're to see the truth

It's what you don't know
