On the first I saw your face
21st around by your embrace
But tonight I'm on my way
I wish that I could find a way to stay
Right here, with you
And tonight I really got to say

that I can't stop right now
You know I love you
I won't stop right now
You know I need you
Don't you let go
You know that I just can't stop right now
You know that I just
Can't stop right now
You know I love you
I won't stop right now
You know I need you
Don't you let go
You know that I just can't stop right now
Can't stop (oh)
I won't stop, I can't stop
You know that I just can't stop right now

Now I'm gone and far away
Sitting here when all my thoughts away
Think of you and yesterday
I miss your smile and touch in you always
I know, you know
And tonight I really got to say

that I can't stop right now
You know I love you
I won't stop right now
You know I need you
Don't you let go
You know that I just can't stop right now
You know that I just
Can't stop right now
You know I love you
I won't stop right now

You know I need you
Don't you let go
You know that I just can't stop right now
Can't stop (oh)
I won't stop, I can't stop
You know that I just can't stop right now

Now listen
I can't stop right now
I won't stop right now
So don't you let go
You know that I just can't stop right now
I can't stop right now
I won't stop right now
So don't you let go
You know that I just can't stop right now

I can't stop right now
You know I love you
I won't stop right now
You know I need you
Don't you let go
You know that I just can't stop right now
You know that I just
Can't stop right now
You know I love you
I won't stop right now
You know I need you
Don't you let go
You know that I just can't stop right now
Can't stop (oh)
I won't stop, I can't stop
You know that I just can't stop right now
I can't stop right now
I won't stop right now
So don't you let go
You know that I just can't stop right now
