When you feel lost and broken
You know I'll sing for you
You wish that look who finds you
I'm there to sing for you
And when those people fail you
I'll stay to sing for you
And one day, someday,
and now you've heard them
Maybe you sing for me

So close your eyes
And think about the better places
That you'll find
Just look around and turn to fate it
Open your eyes
I'm bound and here's waiting for you
If you let it to

Stand up, get up, come on sing a song
Hold on, be strong, move on
Cause I know there's hope
somewhere deep inside
with my heart we'll sing for you
Sing it for you, I'll sing it for you

So close your eyes
And think about those better places
That you'll find
Just look around and turn to fate it
Open your eyes
I'm bound and here's waiting for you
If you let it to

Stand up, get up, come on sing a song
Hold on, be strong, move on
Cause I know there's hope
somewhere deep inside
with my heart we'll sing for you

When you feel lost and broken
You know I'll sing for you

You wish that look who finds you
I'm there to sing for you
And when those people fail you
I'll stay to sing for you
And one day, someday,
and now you've heard them
Maybe you'll sing for me

Stand up, get up, come on sing a song

Stand up, get up, come on sing a song
Hold on, be strong, move on
Cause I know there's hope
somewhere deep inside
with my heart we'll sing for you

Sing it for you, I'll sing it for you
I'm there to sing for you
Listen to this song for you
I will stay to sing for you
So listen to this song for you

Sing it for you

I'm there to sing for you
Listen to this song for you
I will stay to sing for you
So listen to this song for you
I'm there to sing for you
Listen to this song for you
I will stay to sing for you
So listen to this song for you

Stand up, get up, come on sing a song
Hold on, be strong, move on
Cause I know there's hope
somewhere deep inside
with my heart we'll sing for you
Stand up, get up, come on sing a song
Hold on, be strong, move on
Cause I know there's hope
somewhere deep inside
with my heart we'll sing for you
Sing it for you
