Gonna be a white minority

All the rest will be the majority

Gonna breed inferiority

Gonna be a white minority

White pride you're an american

I'm gonna hide everywhere i can

Gonna be a white minority

You don't believe there's a possibility

But you just wait and see

There's gonna be a white minority

Chorus

Gonna be a white minority

There's gonna be large casualties

We'll find ner territory

We're all gonna die
