

## Elms, The "Makes Good Sense"

Visit "[Makes Good Sense](#)" on [MotoLyrics.com](http://MotoLyrics.com)

I've got places we can go  
There'll be no one around  
There's a bridge over the river  
At the edge of the town  
Where there's nothin' they can hear  
There's nothin' to see  
Wanna help you make sense to me

If you're crawling through the window  
We're locked in a house  
I'll be over in a while  
And we'll figure it out  
You got somethin' you can do  
You got no where to be  
Wanna help you make sense to me

Cause I got a little time  
And I need to get in touch  
And my heart's the kind of broken that won't take much  
There's a time to be together  
A time to go free  
And you make good sense to me

Well it ain't a real vacation  
But it's all that we got  
I'll come out and we'll go swimmin'  
Where the water is hot  
Yeah we'll live a little summer  
You'll never believe  
I can help you make sense to me

Cause I got a little time  
And I need to get in touch  
And my heart's the kind of broken that won't take much  
There's a time to be together  
A time to go free  
And you make good sense to me

Hey!  
Real good sense!

I can hear 'em through the bushes  
The chase in the south  
And they'll never understand  
What a secret's about  
See the promises I made  
That never come true  
But I know I made sense to you

Cause I got a little time  
And I need to get in touch  
And my heart's the kind of broken that won't take much  
There's a time to be together  
A time to go free  
And you make good sense to me

Yeah, I got a little time  
And I need to get in touch  
And my heart's the kind of broken that won't take much  
There's a time to be together  
A time to go free  
And you make good sense to me

Yeah, you make good sense to me  
Hey!
