Got the kind of face everybody knows.  
Run around barefoot when it snows.  
Growin' out your hair 'cos you like it long.  
Fighting in the road 'cos you know it's wrong.  
People got a thing for the dangerous.  
You'll find it inside the best of us.  
Taking what they want like it's owed to them.  
Other folks do the best they canâ€¦ Some of us do the  
best we can!

Brothers! Brothers!  
Everybody's speaking in tongues, we gotta speak in  
love!

Never met a man 'said he did not try  
Running from the truth time again in life.  
You can be the poor one, rich or wise,  
But all of us know 'bout sacrifice.  
Put me in the water, put me in the fire.  
Put me in the world and I'll walk that wire.  
Seen the people come and I've seen them go.  
Talk all day but it's what they showâ€¦ Talk all day but  
it's what you show!
