Here come the fuckas on the streets

Cuz there's the chopgang

From the neighbourhood

Nobody tries, tries to interpose

They only want to get your hats away

refrain:

What preserves me

From the fuckas who steal?

Cuz I wanna be free

I hate the fuckas from street

One day the kicked me on the street

Inipid smiles made me tremble

Strapping fella was over, over there

He followed me when I started to run

refrain

Last time they went whole hog

They were never my homies

Cuz I'm a flop

Strapping fella is now, now my friend

He follows me when I go to the operette
