In a foreign country you and I,
Sit beneath the foreign sky.
Walk the unfamiliar streets,
watch as yesterday repeats.
Moving through the ruins of the day, We begin to lose
our way.
Everything we might have been, waiting to begin again.
We are entering the beauty of an unfamiliar past,
Hoping for an ending tha will last.

(Chorus)

After all the doubt,
after all the searching,
after all that we've been through.
After all the love and after all the sorrow, there was
once and always you.
Standing on the old Cathedral steps,
Kissing where the saints have went.
Shadows from another time, somewhere you were
always mine.
In the quiet and the mystery of the all too humored
heart.
lives that come together and apart

(Chorus)

After all the doubt,
after all the searching,
after all that we've been through.
After all the love and after all the sorrow, there was
once and always you.
In a place so unfamiliar we can finally recall,
only one thing matters after all..

after all....

After all the love and after all the sorrow there was
once and always you
After all the doubt,
after all the searching,
after all that we've been through,
after all the love and after all the sorrow there was

once and always,

once and always you

once and always you
