Before you speak  
What you can't rehearse  
Before the tide  
You can't reverse  
The pounding of your heart  
The rhythm of the surf  
A blessing you would curse  
If you only had the words

For the sleepless dark water that's caught you in waves  
of longing and doubt  
Before you're strong enough to stop what you started  
here

Before you choose  
Uncertain days  
A silver cloud  
A breath of haze  
A fog upon the coast  
A ghost of happiness  
A sadness you would bless  
If you only could confess

To the sleepless dark water that's caught you in waves  
of longing and doubt  
Before you're strong enough to stop what you started  
here  
You always know the ending  
The waves will come

To steal the silence  
To feel the wind upon your face  
You make a promise  
Before you can be saved

The sleepless dark water that's caught you in waves of  
longing and doubt  
Before you're strong enough to stop what you started  
here  
You always know the ending  
The waves will come

The waves will come apart
