"I Melt"

When you light those candles
Up there on that mantle
Settin' the mood
Well I just lie there starin'
Silently preparin' to love on you
Well I can feel the heat from across the room
Ain't it wild what a little flame can make you wanna do
I melt, everytime you look at me that way
It never feels, anytime, anyplace
This burn in me's the coolest thing I ever felt, I melt
Don't know how you do it
I love the way I lose it everytime
Whats even better's knowin that forever your all mine
The closer you get the more my body aches
One little stare from you is all it takes
I melt, everytime you look at me that way
It never feels, anytime, anyplace
This burn in me's the coolest thing I ever felt, I melt
I melt, I melt, everytime you look at me that way
It never feels, feels, anytime, anyplace
This burn in me's the coolest thing I ever felt, I melt, I

melt, I just melt

Everytime you look at me that way, I just melt, I melt, I
just melt, I melt
