Can somebody tell me when

I might feel like myself again

And how long will it be

Till I can face this reality

My friends are callin'

But I can't get out of bed

Because I'm so afraid

That the tears will start to fall again

Chorus...

So what can I say

Though what can I do

Lady can't you see that I'm missing you

There's nowhere to run, there's no where to hide

And you know it's tearing me up inside

Everytime we were together

And I feel your loving arms around me

Thought that we would last forever

But I'm alone tonight

And I beg you please give it one more try

You know we were so good together

Girl I need a kiss not a kiss goodbye

And loving me now and till forever

Speaking...

Like a sad movie on a screen

Our story has no happy ending

Now the world is cold like fallen snow

A cold lonely wind blows

We kiss goodbye on a lonely street

And then you walk away from me

Now my heart it waits to accept sorrow

Tell me I don't make you see

What I'm feeling in my heart

Cause I'm hanging over memories

And try not to fall apart

Feels like I'm drifting like a kite with a broken string

And I keep holding on

But girl I really need you here with me

Chorus...

So what can I say

Though what can I do

Lady can't you see that I'm missing you

There's nowhere to run, there's no where to hide

And you know it's tearing me up inside

Everytime we were together

And I feel your loving arms around me

Thought that we would last forever

But I'm alone tonight

And I beg you please give it one more try

You know we were so good together

Girl I need a kiss not a kiss goodbye

And loving me now and till forever...yeah

I'm begging you please give us one more try

You know we were so good together

Girl I need a kiss not a kiss goodbye

And loving me now and till forever
