Through the storm and the rain

Through the joy and through the pain

I promise to love you 'til the end of time

And I want you to promise that you'll always be mine

[CHORUS]:

Promise to love you stay by your side

Place no one above you you will always be mine

I'll never hurt you I'll never lie

Promise to protect you always stay by your side

Baby baby can't you see

That from the first tiem I saw you I'm in love

And now I've got to let you know how I feel

And now it's time to let you know that you are

More than I ever dreamed for

Someone that I can adore

You have me feeling feelings I've never felt before

So won't you give me a sign

To know that soon you'll be mine

I'll give you my heart, my soul, my love

CHORUS

Baby baby talke to me

Girl you gotta let me know how you feel  
'Cause all of this love I have inside is for real  
And now the time has come to let you know that  
I make this promise to you  
My heart will always be true  
And I will give all my love and devotion to you  
When all is sad and done  
Two hearts are better than one  
Deep in my heart I'm  
Hoping that you're feeling it too

CHORUS

I promise I'll be there for you  
I swear my love will always be true  
I will stay right by your side  
Forever till the end of time

CHORUS
