Come and join my celebration  
Darker black no hesitation  
Why I live in desperation  
(Strangle me, Strangle me)  
Frankly I'm a situation  
Always with infatuation  
Cry for love with irritation  
Crack my brain for inspiration  
(Strangle me, Strangle me)  
\*Chorus\*  
If all the world hated me  
Wouldn't you be the one to love me  
Wouldn't you kiss me till I drown  
If all the world hated me  
Wouldn't you be the one to love me  
Wouldn't you kiss me till I drown  
Focus into complication  
Turns me to that separation  
In my head that revelation  
Need to find some stimulation  
(Strangle me, Strangle me)  
Tell me why this aggravation  
Forced to be my facination  
Moving on no hesitation  
Carry on investigation  
(Strangle me, Strangle me)  
If all the world hated me  
Wouldn't you be the one to love me  
Wouldn't you kiss me till I drown  
If all the world hated me  
Wouldn't you be the one to love me  
Wouldn't you kiss me till I drown
