"I Think I Went Crazy"

Visit "[I Think I Went Crazy](#)" on MotoLyrics.com

I think I went crazy,
Falling asleep,
Passing out,
Its all the same to me,
When Im not conscious,
When Im asleep,
Hallucinations of depression

They're Everywhere!

Under the influence,
Makes no difference,
In what you do or what you say,
Six cans of Molson,
And Im out cold,
Hallucinations of depression

They're Everywhere!

Driving home after the kegger,
Thinking of how Ill beg her,
To forgive me for being late,
Past the designated time and date,
Eyelids getting heavy,
While driving in my Chevy,
Hallucinations of depression

Wake up,
And Im greeted by two flashing headlights,
Break up,
Now Im going crazy,
Wake up,
Life flashing before my eyes,
Break up,
Step into the white light
