Up a world, I'm mighty  
Will like the TERROR INSTEAD  
Aware I can see that I weep

Know only much more  
Grasping within these eyes  
Dark desires lead to words  
That cut like knives

Frozen in your tracks  
No remorse embrace the wreck  
Twisting down your spine  
Till the end of time

It's fire and ice  
Make for sacrifice  
No one there to catch you when you fall

It's shadows and sin  
Enemies within  
You'll be fine, so cross the line  
And tell me it all

Slivering the shapes of nothing

Yesterdays promises dying  
Oh, taken all that I need to bleed you  
Gonna bleed you!

Try!

Cut your throat  
Abandoned our hope  
Blood, morning, lusting for trail  
Break the trust from dawn to dust  
Bring down the curtains on your final act of betrayal

Empty hands with coil  
Feel your blood begin to boil  
Tales and fames are doomed  
Violently consumed  
It's fire and ice

Make for sacrifice  
No one there to catch you when you fall

It's shadows and sin  
Enemies within  
You'll be fine, so cross the line  
And tell me it all

Virtue or vice  
Here to pay the price  
When there's no one to catch you when you fall

So dare on your own!

Gimme hot blood budding  
Infect and pollute all that's pure  
Oh, dare my own journey through

Vengeance and fury  
Screaming on eye for an eye  
Flashing all in anger  
I curse the sky

Demons saw me song  
First your ear and then the tongue  
Wear this mask on fire  
And burn, burn for all you desire

It's fire and ice  
Make for sacrifice  
No one near will catch you when you fall

It's shadows and sin  
Enemies within  
You'll be fine, so cross the line  
And tell me it all
