Chorus:

(I wanna love u like u never been loved b4 baby)
Ever since the first time I looked into your yes
(I knew) I knew (we would never be apart)
And ever since the first time I kissed your lips
I knew right then (we would never be apart)

I never wanna be apart form u
N imma do what I gotta do
Ever situation that we've been through
Wouldn't be the same if I didn't have you
I wanna be your dreams at night
Sun shine when you open your eyes
Sweet thought inside your mind
Singing to u all the time

I love you
You're my baby
I want u
Everything about u
So damn cool
N we could never be apart

Chorus:

Ever since the first time I looked into your yes
(I knew) I knew (we would never be apart)
And ever since the first time I kissed your lips
I knew right then (we would never be apart)

You gave up everything for me
When I was down you stood by me
Never had to ask for anything
You found the best there was in me
Remember all those rainy days
Never ever lost the face
No body could ever take your place
Tell you proudly everyday
I love you
You're my baby
I want you
Everything about you
So damn cool

N we could never be apart

Chorus:

Ever since the first time I looked into your eyes
(I knew) I knew (we would never be apart)
And ever since the first time I kissed your lips
I knew right then (we would never be apart)

Guy:

Check this out girl
U can count on me
U can call on me
7 days a week its all bout you n me
Through the good times n the bad times too
You been there for me so imma hold it down too
You got the loveliest thing up in this whole wide world
N imma be the one always treat u right
Girl, do what you like, promise to hold you tight
I wanna be the only fool in your life

Chorus:

Ever since the first time I looked into your eyes
(I knew) I knew (we would never be apart)
And ever since the first time I kissed your lips
I knew right then (we would never be apart)

Must be the magic then again
Giving u what u like what u like
Me and Angelina oh, oh, oh!~!~!
