I wanna love you
Like you've never been loved before
Baby

Chorus:
Ever since the first time I looked into your eyes
I knew right then
We would never be apart
And ever since the first time I kissed your lips
I knew right then
We would never be apart

I never wanna be apart from you
(Never never)
And Imma do what I gotta do
Every situation that we've been through
Wouldn't be the same if I didn't have you
I wanna be your dream at night
Your sunshine when you open your eyes
Sweet thoughts inside your mind
Singing to you all the time

Bridge:
I love you
(I love you)
You're my baby I want you
(I want you)
Every thing about you so damn cool
(Damn cool)
And we could never be apart

Chorus:
Ever since the first time I looked into your eyes
I knew right then we would never be apart
And ever since the first time I kissed your lips
I knew right then we would never be apart

You gave up everything for me
When I was down you stood by me
Never had to ask for anything
You found the best there was in me

Remember all those rainy days
Never ever lost the faith
Nobody could take your place
Tell you probably everyday

I love you
(I love you)
You're my baby I want you
(I want you)
Every thing about you so damn cool
(Damn cool)
And we could never be apart

Chorus:
Ever since the first time I looked into your eyes
I knew right then we would never be apart
And ever since the first time I kissed your lips
I knew right then we would never be apart
