

## Angelina "Lifetime With You"

Visit "[Lifetime With You](#)" on MotoLyrics.com

If you ever thought that I could ever leave you  
Then I might as well turn and walk away  
If you ever thought that I, I didn't need you  
Then I just as well let my love astray  
Well there's something about you baby that sure seems  
right  
I dream about you baby every night  
And if I had one wish that I know would come true  
I would spend my lifetime with you

If you ever thought that I didn't love you  
Or did you feel that I could hurt you in any way  
If you ever thought there was anyone above you  
Then I might as well throw it all away  
Well there's something about you baby that sure seems  
right  
I dream about you baby every night  
And if I had one wish that I know would come true  
I would spend my lifetime with you

If you ever thought that I would ever leave you  
Then I might as well turn and walk away  
If you ever thought that I, I didn't need you  
Then I just as well let my love astray  
There's something about you baby that sure seems  
right  
I dream about you baby every night  
And if I had one wish that I know would come true  
I would spend my lifetime with you
