I dont wanna be without your love
Cuz you're the only one I'm thinking of, baby
I'm afraid to live without your love
So, baby, dont you go away
I dont wanna be without your love
Cuz you're the only one I'm thinking of, baby
I'm afraid to live without your love
So, baby, dont you go away

These feelings I have inside my soul
There's no words that can describe
The way that you hold me
The way the you need me
The way that you make me feel when I'm with you
In the heat of the night I call your name
And you set me on fire like the burning flame
>From the moment you touched me my heart beats
fast
And my passions wants to take control

I dont wanna be without your love
Cuz you're the only one I'm thinking of, baby
I'm afraid to live without your love
So, baby, dont you go away
I dont wanna be without your love
Cuz you're the only one I'm thinking of, baby
I'm afraid to live without your love
So, baby, dont you go away

As the sun goes down and I close my eyes
All my dreams they are of you
They're filled with emotions
And visions that keep me
Keep me reminded of the life we share

When I'm alone I imagine how it would be
If there was never a "you" to care for me
No one else can make me feel this way
So I'm never gonna let you go

I dont wanna be without your love
Cuz you're the only one I'm thinking of, baby

I'm afraid to live without your love
So, baby, dont you go away
I dont wanna be without your love
Cuz you're the only one I'm thinking of, baby
I'm afraid to live without your love
So, baby, dont you go away

Los sentimientos que tengo en mi corazon
No hay manera de describir
Como me sostienes
Y me necesitas
La manera que me haces sentir
Nadie mas en mi vida me dara
El amor que ofreces sin cesar
Durante tiempos deficil
Conte en ti
Te amare por eternidad

I dont wanna be without your love
Cuz you're the only one I'm thinking of, baby
I'm afraid to live without your love
So, baby, dont you go away
I dont wanna be without your love
Cuz you're the only one I'm thinking of, baby
I'm afraid to live without your love
So, baby, dont you go away
