We don't need no education
We don't need no thought control
No dark sarcasm in the classroom
Teachers leave the kids alone

Hey, teacher leave the kids alone!
All in all it's just another brick in the wall
All in all you're just another brick in the wall

We don't need no education
We don't need no thought control
No dark sarcasm in the classroom
Teachers leave the kids alone
Hey, teacher leave the kids alone!
All in all it's just another brick in the wall
All in all you're just another brick in the wall
