All this love is all I am -

A ball is all I am.

I'm so new

Compared to you

And I am very small.

Warm glow - Womb gloom -

Always need a little more room.

Waiting here -

Seems like years -

Never seen the light of day.

All around

I hear strange sounds

Come gurgling in my ear.

Red, the light, and dark, the night -

I feel my dawn is near.

Warm glow - Womb gloom -

Always need a little more room.

Whispered low - Here I go -

I will see the sunshine show.
