Pay attention, are you listening? You're my favorite girl
Excuse me for the moment, I'm in another world
On a mountain, by a fountain, flowers blooming
everywhere
With Venus and cupid, the picture's very clear

Hang the sign upon the door, say, 'Don't disturb this
groove'
Just a way to say that, I'm so into you
And the feelings so real, so don't disturb this groove

Erotic whispers for the listener, let the music fill the air
Excuse me for a moment, I'm at a loss for words
By election sheer perfection and as if these eyes would
care
Your heart is in the right place, so don't you go and
change

Baby over and over the passion starts again
You're my lollipops and everything and a little taste of
sin
Causing fire and desire in this mortal soul to live
Till the angels fall from heaven and the day the earth
stands still

Hang a sign upon the door, say, 'Don't disturb this
groove'
Just a way to say that I'm so into you
And the feeling's so real, so don't disturb this groove
Just a way to tell you that I'm so into you

Close your eyes and let the music put you in the groove
Lock the door and turn the phone off, it's time for me
and you
Hang the sign upon the door, say, 'Don't disturb this
groove'
