Feel it in the dark, I feel it in the light
Up in central park downtown late at night
It's the rhythm in your soul that takes away control
It's the magic in the air when you find someone tor
eally care
Can you feel it, it's the

Heartbeat of the city in the heart of you
Heartbeat of the city deep inside of you
It's back beat in the heart of you
With the heartbeat of the city you'll come shinning
through

Happiness is free, no smoke to get me high
Just the music of the streets and city lights intoxicate
my mind
And the vision comes to life, it happens every time
Of my baby and me dancin' free in the key of city life
Can you hear it, it's the
Heartbeat of the city in the heart of you
Heartbeat of the city deep inside of you
On back street in theheart of you
With the heartbeat of the city you'll come shinning
through

Feel it in the dark and feel it in the light
From the windows of the world watching back street of
your life
It's the beat when you're alone with no one there to
hold
That keeps burnin' in your soul and never leaves you
could

Heartbeat of the city in the heart of you
Heartbeat of the city deep inside of you
It's back beat in the heart of you
With the heartbeat of the city you'll come shinning
through
