The System
"Loderman"

Finally, all the help that I can
Get before I fall in
Leavin' it for me, myself again
You know the love you gave was too strong
Some old man to hold on
Leavin' it for me, myself again, again

Let me fall apart
And let me steal your heart but maybe
We can be together for a small time
You know the love you gave was too strong
Some old man to hold on
Leavin' it for me, myself again, again

(Chorus):
I've already gone too far
You know life is all who we are

Finally, all the help that I can
Get before I fall in
Leavin' it for me, myself again
You know the love you gave was too strong
Some old man to hold on
Leavin' it for me, myself again, again

(Chorus)
