How should i feel  
Knowin table is who you  
Feel without us  
No one's commin after you

Same thing always  
Its never your fault  
Its always something  
That'll never change

Think im tired  
Of all of this you put me through  
Be responsible  
Your the one who put me through

Same thing always  
Its never your fault  
Its always something  
That'll never change

Same thing always  
Its never your fault  
Its always something  
That'll never change

Same thing always  
Its never your fault  
Its always something  
That'll never change
