Thinkin to myself
That im controlled by somethin else
Somethin i cannot fake somethin i cannot do without
Come with me some stay with me
Come help me when im fallin

Somethings just not right today
Feelin like i should fly away
Nothings goin right today
Feelin i should go away

Thinkin to myself
That my life is a living hell
Something i cannot fake
Somethin i cannot do without
Come with me come stay with me
Come help me when im fallin

Somethings just not right today
Feelin like i should fly away
Nothings goin right today
Feelin i should go away
So fall away
Leave today
Escape this day
So far away

Somethings just not right today
Feelin like i should fly away
Nothings goin right today
Feelin i should go away
So fall away
Leave today
Escape this day
So far away
