"Waiting"

This is why
Face today
Things that make me feel this way
Fall away

So i wont
I wont be here waiting for your call
So i wont
I wont be here alone

This is why i dont
Sit and cry
You will be die
Think about your deep vulgar
All these lies

So i wont
I wont be here waiting for your call
So i wont
I wont be here alone

So i wont
I wont be here waiting for your call
So i wont
I wont be here alone
So i wont
I wont be here waiting for your call
So i wont
I wont be here alone
