

Systematic "Change"

Visit "[Change](#)" on MotoLyrics.com

Yeah

I'm feeling kinda sick
Sick of all the things they do
Swaying with the wind
Tell me who is fooling who
I'm not changing for this changing world
And I'll live my life my own way

On and on they drag me on
I won't change for you
On and on they drag me on
I won't change for you

Yeah

Shifting with the sands
See them sinking once again
Fair-weathered till the end
They follow thier forgotten trends
I'm not changing for this changing world
And I'll live my life my own way

On and on they drag me on
I won't change for you
On and on they drag me on
I won't change for you

I'm not changing for this changing world

On and on you drag me on
I won't change for you
On and on they drag me on
I won't change for you
On and on they drag me on
I won't change for you
