I carry my microphone with me  
Everywhere I go  
It makes for a very good dead weight  
In case of an emergency  
In case I need to break your face  
In case I need you to be dead

Who do you think you are  
Who do I think you are  
I know who you are  
And it's hard to believe that God made you and me  
with the same hands

Sit?  
I tell my doggie to sit  
But I am not a dog  
But you make the animal in me  
Want to come out all over you

Chorus [x2]

And it's hard to believe that I'm still a believer
