I'm so  
Stupid and foolish I dropped the other to be available  
now  
Where are you to keep the confidence?

I'm so  
Stupid and foolish I dropped the other to be available  
now  
Where are you to keep me faithful?

My oh my oh my  
Did I drop the other  
Why oh why oh why

You make it look so good  
The way you put it like that  
Yes I know we could  
So shall we?  
From the very first time  
I could see in your eyes  
They showed me everything  
I need was waiting

I'm so  
Stupid and foolish I dropped the other to be available  
now  
Where are you to keep the confidence?

I'm so  
Stupid and foolish I dropped the other to be available  
now  
Where are you to keep me faithful?

My oh my oh my  
Did I drop the other  
Why oh why oh why

Yes I always work hard  
I can make you flip out  
You see now I got nerve  
For asking what I'm worth

If you really got faith  
Then I know you'll invest  
Hold your money up high  
Waving and smiling

I'm so  
Stupid and foolish I dropped the other to be available  
now  
Where are you to keep the confidence?

I'm so  
Stupid and foolish I dropped the other to be available  
now  
Where are you to keep me faithful?

My oh my oh my  
Did I drop the other  
Why oh why oh why
