In control
thats where Im gonna stay
its my show
I will run this my way
if you think you know
reconcider baby
understand what i say cos

you keep it up but I am stronger
Ive had enough- nomore nolonger

chorus

So when you think you know
the way to go- Im better
you underestimate me
I am not a fool for you
and now youre thinking-saying we'll get back together
dont talk to me
Im done with you

verse 2

for a while
I was broken cos you
and your smile
had me choking
but you forgot that I
I will always pull through
I came back and left you behind

you rush the run but I am patient
the game is on dont keep us waiting

chorus

so when you think you know
the way to go- Im better
you underestimate me
I am not a fool for you
and now your thinking- saying we'll get back together

dont talk to me
Im done with you

mid 8

And when Im going through the things youve said and
done so far
I still dont understand
you had the upper hand
and now you want me to rethink the things we said
dont talk to me
dont talk to me

so when you think you know
oooh ooh
you underestimate me
I am not a fool for you

chorus

so when you think you know
the way to go- Im better
you underestimate me
I am not a fool for you
and now youre thinking
saying we'll get back together
dont talk to me
Im done with you
