Dave Peverett - Pevwrite Music - ASCAP

I woke up last night about half past four, two police cars  
at my door.

Said you'd been drunk and out of control, you ran my  
car into a telephone pole,  
Tell me baby, is it true what I heard? You never said a  
word.

Don't give me that silent treatment, don't give me that  
silent treatment,  
When you do something bad, it only drives me mad -  
you do it every time.

Well, I said, "Hey baby, what you tryin' to do?  
The things I heard about you can't be true.  
Every night you're out on the town, you run my money  
into the ground,  
"Hey baby, were you out with the boys?" You never  
made a noise.

Don't give me that silent treatment, don't give me that  
silent treatment,  
When you do something bad, it only drives me mad -  
you do it every time.

Well you broke my heart, it was an accident, just like  
my money, all my love is spent.  
I don't know why but I can't get through to you.

Don't give me that silent treatment, don't give me that  
silent treatment,  
When you do something bad, it only drives me mad -  
you do it every time.

{Dave - Solo}

Well you broke my heart, it was an accident, just like  
my money, all my love is spent.  
I don't know why but I can't get through to you.

Don't give me that silent treatment, don't give me that  
silent treatment,  
When you do something bad, it only drives me mad -  
you do it every time.  
Oh yeah!

{Dave - Solo}

Don't give me that silent treatment, don't give me that  
silent treatment,  
When you do something bad, it only drives me mad -  
you do it every time.

Don't give me that silent treatment, don't give me that  
silent treatment,  
When you do something bad, it always drives me mad -  
you do it every time.

Don't give me that - (Silent treatment) (Silent treatment)  
You do something bad, it only drives me mad - you do  
it every time.

Don't give me that - (Silent treatment)  
You do something bad, it only drives me mad - you do  
it every time.

Don't give me that silent treatment, don't give me that  
silent treatment

When you do something bad, it only drives me mad -  
you do it every time.

Don't give me that.
