To blind to see this
What we are, what we are
Let my intentions speak
Then you should know
Who I am

Sacrifies what we got
We can never be so wrong
This is our way to spread the words
We song our songs just to show you
Who we are

To blind to see this
What we are, what we are
Let my intentions speak
Then you should know
Who I am

My faith is clear
This is a chance to bring it home
With open arms we face the world
We reach our goals
Thats what makes us who we are

To blind to see this
What we are, what we are
Let my intentions speak
Then you should know
Who I am

To blind to see this

To blind to see this
What we are, what we are
Let my intentions speak
Then you should know
Who I am
