[Intro]

Yeah, T.I.T.O

I just want my mama to be proud of me

I just want my mama to be proud of me

That's all I want

I just want my mama to be proud of me

I just want my mama to be proud of me

[Verse 1]

I do it like this for a reason

Cause if you stop the beat it don't feel like I'm f*ckin'
breathin'

Gettin' even for your treason

I'm squeezin' my whole life into a verse

In the studio itchin' to fit your lil' mic' into a hearse

And a worst case, scenari-o you know it gets scary

Well loaded in this motherf*cker they 'gon laugh at you
carry

I'm very sick, I might throw up

Grenades and lemonades for lunch n*gga makin' sure

I blow up

I can't slow up, too busy bleedin' the brakes

And I stay in my lane cause I don't wanna be with the
fakes

Call a snitch T.D. whether they be with the Jakes

See how n*ggas is rats, too busy feedin' the snakes

I got, aches and pains from bein' boxed in

Locked in my firm spot in the f*ckin' top ten

And you tryin' to push the envelope get you a stamp
then

Pops gave me that belt, I guess that means I'm champ
then

Right!

[Hook]

And I just want my mama to be proud of me

I just want my mama to be proud of me that's all I want

And I just want my mama to be proud of me

I just want my mama to be proud of me that's all I need

And I just want my mama to be proud of me

I just want my mama to be proud of me that's all I want

And I just want my mama to be proud of me
I just want my mama to be proud of me

[Verse 2]

OK! Trill at the wheel, let me let my seat back
Adjust the mirror for n*ggas so I can peep back
Start with Licious Left, left off with three stacks
Three lax, peel off then lead tracks ease back
And these back pains I handle a different way
I stay Icy Hot, these n*ggas Bengay
And since they feel the need to question whether he's
real
I stopped before they start like the plan b pill
B*tch I'm the answer, question, who's the truest?
Still the answer, question, who's the newest?
Knew this, the way I let it all hang out
Rope chain make a noose homey chill hang out
They need a hero so I suited up and came out
Show the dame how she came in once I came out
Yeah! Tito Lo the name you should know
If you don't f*ck with me you know where you can go
N*gga!

[Hook]

And I just want my mama to be proud of me
I just want my mama to be proud of me that's all I want
And I just want my mama to be proud of me
I just want my mama to be proud of me that's all I need
And I just want my mama to be proud of me
I just want my mama to be proud of me that's all I want
Man I just want my mama to be proud of me
I just want my mama to be proud of me

[Verse 3]

Huh! Dammit! Was on the way home and crash landed
Stranded, f*ck the planet if they don't understand it
And my crew, I got it branded
That's just the way that love goes, it's thugged out,
forgive me Janet
Man it's unlikely you see me weak on these beats
Comin' from these streets I'm stretchin' three hundred
for three weeks
And these freaks wanna play chess, with they sex
I tell a b*tch to, Skip like Bayless to Payless before I say
yes
Comments from common n*ggas, thinkin' they
commentators
But y'all ain't commentators y'all n*ggas is common
haters
Watts told me to keep the energy flowin' I listened
Mississippi power really my only competition

I see you fishin' for greatness in the wrong water
Ain't caught a part of a starter for your team, play it
smarter
I see a lot of Marlons, I don't see no Michaels
One love in my one glove
Ha!

[Hook]

And I just want my mama to be proud of me
I just want my mama to be proud of me that's all I want
And I just want my mama to be proud of me
I just want my mama to be proud of me that's all I need
And I just want my mama to be proud of me
I just want my mama to be proud of me that's all I want
I just want my mama to be proud of me
I just want my mama to be proud of me

[Outro]

T-I-T-O! Uh! G-P-T! Y'all know how we do
I just want my mama to be proud of me
Uh! I just want my mama to be proud of me
I just want my mama to be proud of me
Huh!
