By Ellie Greenwich, Jeff Kent and Rob Parissi

I remember yesterday

It doesn't seem so far away

The crazy things we used to do. I can still remember

All the boys on Friday night

We had to keep 'em out of sight

So we could have our secret rendezvous

I remember the danger

I remember the sign

We were flashing the lights

('Cause) We were ready (we were ready) for the boys.

Chorus:

We always had the time to be taking

Boys in the attic

Boys in the attic

We always found a way to be sneaking

Boys in the attic

Boys in the attic

Boys

Oh we were oh so much in love

In our secret room above

I wish those days were back again. I can still remember

The sound of footsteps from below

A sign the boys would have to go

Sometimes I close my eyes and just pretend

That I'm back in the attic and I'm back in his arms

I can feel it tonight

Oh I'm so ready (I'm so ready) for the boys

Repeat Chorus

(Oh yeah)

Every summer Friday night

It was magic. It was right

Hearts on fire burning free

Living out our fantasy

I remember yesterday in our secret hideaway

That was where, that was when

We became the best of friends (remember, remember,
remember, remember)

I remember the danger. I remember the sign

We were flashing the lights

Oh we were ready (we were ready) for the boys

Repeat Chorus

We always had the time to be taking

Boys in the attic

Boys in the attic

I remember the night when I first wanted you (boys
boys, boys in the attic)

Hiding away in our secret rendezvous (boys boys, boys
in the attic)

We were so nervous climbing the stairs (boys boys,
boys in the attic)

Feeling the heat of our love in the air (boys boys, boys
in the attic)

Filled with a feeling that I could not explain (boys boys,
boys in the attic)

Was it Tommy or Jimmy?

I just can't remember his name (boys, boys)

Boys in the attic

Boys

Boys

Boys in the attic

Boys
