And its Time, to say goodbye  
To you and I  
All the times weve cried  
And all the times weve said  
I love you

And I enjoy this, for the last time  
And you thank me, but I should be thanking you  
And you walk, out that door for forever  
But I will, forget you never

And its Time, to say goodbye  
To you and I  
All the times weve cried  
And all the times weve said  
I love you

So I say, thank you  
It was the best time I ever had  
The best days of my life

And its Time, to say goodbye  
To you and I  
All the times weve cried  
And all the times weve said  
I love you
