Gotta love for destruction

Gotta feel for danger tonight

Hey, Mr. Moonlight wontcha follow me down

I need the company

Everybody tells me you're no good

That's all right with me

Gimme one shot of poison

A little twist is all I need

One drop of your sweet poison

Sets me free

Come on baby, poison me

Gotta hunger for fatal attraction

I'm savin' all my passion for you

I gotta heartbreak habit that I can't kick

Only you can ease the pain

I'm a midnight animal tryin' to score

Before I go insane

Gimme me one shot of poison

A little twist is all I need

One drop of your sweet poison

Sets me free

One shot of poison
A little taste of paradise
One drop of your sweet poison
Satisfies
Give me one last kiss before I die
I'm flyin' high
On your love, tonight, baby
One shot of poison
A little twist is all I need
One drop of your sweet poison
Sets me free
One shot of poison
A little taste of paradise
One drop of your sweet poison
Satisfies
One shot of poison
Come on, baby, poison me
One drop of your sweet poison
Sets me free
One shot
