Messiah took this world by force.
Messiah took this world by force.

I could hear children crying.
I could see people dying.
I could see the cities falling
I could hear the angels falling.

Messiah took this world by force.
Messiah took this world by force.

Red clouds blotted out the sun
Darkness fell on everyone
Rivers of blood were running
I could see the armies coming
I could see the weapons fall
I could hear the savior call.

Messiah took this world by force.
Messiah took this world by force.

Spoken: I see a light from the north
The bear from the north, and the dragon from the east
Marched upon the armies of Israel.
I see a light from the north
And on that day the chosen cried out for Messiah.
And Messiah came. Messiah. Messiah. Messiah.

Messiah took this world by force.
Messiah took this world by force.
