My mate lives above a chipshop  
Drink more beers, but then he forgot  
I live at flat 22  
Down and out on Maple Avenue

And I know I've got to be on time  
It's already a quarter to 9  
I never crossed that thin white line  
Being late it's just a big crime to me

Do you think you wanna know  
Do you think it's time to go  
It's time your ship was sunk  
And all the time it's just so punk

And I know I've got to be on time  
It's already a quarter to 9  
I never crossed the thin white line  
If I'm late well that'll, that'll be my time
