

Enemy, The "Pressure"

Visit "[Pressure](#)" on MotoLyrics.com

Pressure, pressure, step into the pressure
Don't let the pressure, let the pressure get you
Better keep a measure, measure on the pressure
Better check your pressure, watch out for the pressure

Take a little walk outside
Just so you know
That you let it all slip away

Working 9 - 5 she was a dancer
She got it in her mind she had the answer now
Oh that she owns a show, to make, your blood pump
faster
Working 9 - 5 she was a dancer
She got it in her mind she had the answer now
Oh that she owns a show, to make, your blood pump
faster

Pressure, pressure, step into the pressure
Don't let the pressure, let the pressure get you
Better keep a measure, measure on the pressure
Better check your pressure, watch out for the pressure

Working 9 - 5 she was a dancer
She got it in her mind she had the answer now
Oh that she owns a show, to make, your blood pump
faster
Working 9 - 5 she was a dancer
She got it in her mind she had the answer now
Oh that she owns a show, to make, your blood pump
faster

Da da da da doh da da da da
Da da da da doh da da da da
Da da...
