"A Night In Paradise"

Visit "[A Night In Paradise](#)" on MotoLyrics.com

How can I believe it now
We'll never have a happy end
Now, I can forget it now
You had a secret in your hand

How can you surrender now
You'll never learn to understand
So you're waiting for me now
But I am not like the rest

I wanna fly home tonight
I wanna love you till the morning light
I wanna give you a night in paradise

How can I deny you (my) love
You had the power in your hands
Now, I can believe it now
(that) this can be love in the end

I, I can begin again
I'm taking all my fears away
So you can believe me now
For all I say I still love you
